A travelling salesman stopped at a small Vermont hotel for breakfast. The waitress asked him what he'd like for his breakfast. "Have you cooked breakfast foods?" he inquired.

"Yes, indeed."

"What kinds have you?"

"Open-face, criss-cross, and kivered—all apple!"

A Harvard professor went down to Maine to give a lecture on the "Fundamentals of Education," in which he emphasized the "seven objectives of education," as embodied in the report of the N. E. A.

After waiting an unreasonably long time for a jury verdict in several cases, an Oklahoma City judge got an idea. He had comfortable chairs removed from the jury room and substituted hard-seated ones for them. Then he timed his jury men and found they reached verdicts averaging an hour less time than before. Deciding to keep up the good work, he took out even the hard-seated chairs and made the jury men stand while deliberating. That cut down the time still more.

The judge's latest move was to nail down the windows, causing the air to become stale in a very short time—which reduced deliberating time of the jury still further.

With an impressive gesture, the long-haired visitor faced the manager of the radio station.

"I should like to secure a place on your dramatic staff," he announced impressively.

"Are you an actor?" asked the radio manager.

"Yes."

"Had any experience acting without an audience?"

Tears came to the actor's eyes as he said, "Acting without audiences is why I am here, sir."

JUBILEE IN VANCOUVER

London, Aug. 8.

The Lord Mayor of London Sir Percy Vincent, accompanied by Lady Vincent and a deputation from the Corporation of the City of London, left this morning on an official visit to Vancouver, British Columbia, to be present for the jubilee celebrations of that city. The party included the Sheriffs, the Lord Mayor's Mace-Bearer, Sword-Bearer and City Marshal. They are taking with them and will present to the city of Vancouver a mace which is almost an exact copy of the City of London mace.—

ARMS INDUSTRY IN FRANCE

Nationalisation Bill Passed

NATIONAL DEFENCE MEASURES

("Hong Kong Daily Press" Special.)

Paris, August 8.

The Senate passed a Bill concerning the nationalisation of the French armament industry by acclamation on Saturday.

In the preceding debate, Air Minister Cot pointed out that the nationalisation of the armament industry would not hamper the present construction programme of the aeroplane factories.

At the request of the rapporteur of the Finance Commission, M. Gardey, the Minister for National Defence, M. Daladier agreed to extend the time limit for the nationalisation of the armament industry and the disappropriation of the present owners' armament factories from December 31, 1935 to March 31, 1937.

The War Minister denied that large quantities of iron ore from Alsace Lorraine were being sold to Germany as one of the Senators had asserted.

The Minister added that the Government would certainly take steps to safeguard national defence if such a necessity arose.—

PLOT NIPPED IN THE BUD

Communist Plan In Greece

("Hong Kong Daily Press" Special)

Athens, Aug. 8.

The police here published a detailed report revealing the Communist plans for the disorders on August 5 which had been frustrated owing to the Government's timely intervention. According to the report the Communist intended to hold a mass demonstration comprising all Athens workers in the centre of the city that day and had given instructions to their adherents to resist the police with force if the necessity arose. Violence was also to be used against such undertaking and shops where business continued despite the proclamation of a general strike, while detachments of shock troops were to halt vehicles trying to maintain traffic.

The workers' representatives warned the authorities that they would proclaim a two days' general strike if necessary. Several members of the labour committee announced that they would go far as to start an overthrow of the government in order to gain their ends. The communist deputy Theos, even demanded that detectives and black legs should be lynched by the workers, and members of the government should be hanged on lamp-posts.—

TO GET RID OF STOMACH TROUBLES

An English Doctor writes :—

"I find that 'Bisurated' Magnesia taken after most of my meals is the only thing that keeps me free from pain and discomfort, and I take it regularly. I often prescribe it for my patients, and have had very good results."
(Signed) *Dr. H. G——, M.A., M.R.C.S., L.R.C.P.*

THE English doctor is the most conservative medical man in the world, and when he not only recommends but personally uses a remedy there can be no more convincing proof of its efficacy. This doctor is but one of many who constantly advise the use of 'Bisurated' Magnesia in all cases of indigestion. Most stomach trouble is caused by acidity, and the reason why 'Bisurated' Magnesia gives quick relief is that it instantly neutralises excess acid and soothes, heals and strengthens the inflamed stomach lining. Nothing could be simpler, safer or surer. If you suffer with indigestion or stomach disorder of any kind put your faith in European science and make an end of your troubles by taking 'Bisurated' Magnesia after eating or whenever pain is felt.

NEW CABINET IN GREECE

Metaxas Remains As Premier

Athens, Aug. 7.

The new Greek Cabinet has been announced, with General John Metaxas as Prime Minister. This man, former leader of the Party of Free Opinion which has since become amalgamated with the United Monarchist Party, is one of the strongest political figures in the country to-day. He is from the Ionian Islands.

General Metaxas holds also the portfolios of War, Navy and Air.

King George of Greece left this evening aboard a destroyer for Corfu, where he will stay until mid-September.

General Metaxas will visit Corfu occasionally to submit documents for the royal signature.—*Reuter.*

COUNTRY QUIET

Athens, Aug. 7.

The situation throughout the country is quiet after the declaration of martial law.

The tension is so relaxed that the King is able to leave the capital for a short holiday at Corfu.

In order to curtail expenditure, the Government has stopped payment of the salaries of members of Parliament, which is now dissolved.—*Reuter's Bulletin Service.*

MORE JEWS KILLED

Disorders Continue In Palestine

Jerusalem, Aug. 7.

Two more Jews were killed last night, one outside Telaviv and the other near Hederah, while a Jewish watchman was seriously wounded during the firing of a fusilade by Arab marksmen who attacked the Jewish settlement near Jerusalem.

Three Arab snipers were killed and two captured, and an officer of the Cameron Highlanders was slightly wounded in an engagement north of Nablus.

The Arabs had opened fire on a convoyed omnibus, from Haifa to Telaviv, and the military escort retaliated. While this duel was going on, a detachment of Seaforth Highlanders was rushed from Nablus to the relief of the convoying troops.

Aircraft co-operated with the ground forces in repulsing the Arab attackers.

Following this engagement, the Highlanders pursued another Arab band, five of whose members were killed.

Simultaneously, aircraft operating independently in the hills accounted for a further eighteen casualties, it is estimated.—*Reuter's Bulletin Service.*

SITUATION IN CHINA

MR. EDEN'S STATEMENT

London, July 23.

Mr. Day (Southwark, Central, Lab.) asked the secretary of State for Foreign Affairs whether he could give any further information as to the situation in China since he made his last statement, and would he give particulars.

Mr. Eden.—As regards the situation in South China, relations between the Central Government and the provinces of Kwangtung and Kwangsi remain strained. On July 14 the Plenary Session of the Central Executive Committee at Nanking passed a unanimous resolution abolishing the South-West Branch Executive Committee. I have no information of any fighting having taken place between the Central Government troops and the South-Western forces, and it appears probable that the authority of the Central Government will be asserted without hostilities. I understand that the principal leader of the South-Western forces has, in fact, left Canton for Hong Kong. As regards the situation in North China, there has been no marked change of recent months, except in so far as concerns the smuggling problem.

CONSULATE HIT BY SHELLS

Much Damage At Algeciras

Gibraltar, Aug 7.

The British Consulate at Algeciras has been damaged by shells fired by the Spanish Government's battleship, Jaime I. All the windows of the Consulate facing the seafront have been broken.

The wife of the Vice-Consul received minor injuries from flying debris.

Many buildings have been damaged by shells and several persons are reported to have been killed and many wounded.

It is believed the Jaime I has succeeded in dismantling the guns in all Algeciras' fortified areas, for after the first few shots from the warship the defenders failed to return her fire.

The fire on the gunboat Dato is now under control.—*Reuter.*

STEAMER BOMBED

Tangier, Aug. 7.

The French steamer Roubaisien, bound for Antwerp from Algiers, was bombed by an aeroplane of unknown nationality five miles from Gibraltar. Three bombs were dropped within a short distance of the vessel.—*Reuter.*

The Governor of Malaga reports officially that the insurgents at Cadiz have surrendered.

Gibraltar, Aug. 7.

The British Government at Gibraltar has protested to the Spanish insurgent leader, General Franco, regarding the firing by rebel gunboats on a British destroyer.

Simultaneously, protests were made to the Spanish Government, asking that its ships be kept clear of Gibraltar thus avoiding danger to life and property on British soil.—*Reuter's Bulletin Service.*

BERLIN OLYMPIC GAMES

Results Of Friday's Events

DECATHLON STANDINGS

("Hong Kong Daily Press" Special)

Berlin, Aug. 7.

Clark (United States), leads the World's best all-round athletes with a total of 4,194 points in the Olympic Decathlon after the conclusion of the first five exercises, that is, the 100 Metres race, Broad Jump, Shot Put, High Jump and 400 Metres race on Friday.

Two other Americans, Glenn Morris, with a total of 4,192 points and Jack Parker with 3888 points, are now in the second and third places respectively. The next places are now held by Brasser (Holland), 3873; Jaervinen (Finland), 3,787; Guhl (Switzerland), 3760 and Tolano (Finland).

In view of Friday's results of the first five events of the Decathlon, it is highly probable that the contest which is universally regarded as one of the most important events in the Olympiad, since it determines the best all-round athlete, will eventually be won by the United States.

The five events still outstanding will be decided on Saturday.—*Transocean News Service.*

PISTOL SHOOTING

("Hong Kong Daily Press" Special)

Berlin, Aug. 7.

The Olympic target pistol shooting event decided on Friday was won by Ullmann (Sweden), with 559 points before Krempel (Germany), who had 544 and Jamonieres (France) who secured 540 points.

The performance of the winner actually constitutes a new World record but it would not be recognised as such by the authorities.

The next places went to Bonin (France), Vartiovara (Finland), Jones (United States), Mueller (Chile), Lalanne (Chile), in the order named.—*Transocean News Service.*

POLO TOURNAMENT

("Hong Kong Daily Press" Special)

Berlin, Aug. 7.

The final for the gold and silver medals respectively of the Olympic Polo tournament which, as reported by Transocean saw the Argentine team triumph over the British players by the score of 11 goals to nil was witnessed by nearly 100,000 spectators which is a record for attendance of polo matches in Germany where the game is relatively little played. The large crowd which had assembled in the Olympic polo stadium was not disappointed for the game was exceedingly fast and the players of both sides were evidently giving their best.

The Argentinians clearly had the advantage of better and speedier ponies and this fact probably decided the issue. The stick work of the British players was quite up to the mark but they were frequently outdistanced by their adversaries in the chase after the ball.

The Argentinians scored but one goal each in the first chukkers but in the fourth chukker they sent ball in four times. In the sixth chukker the Argentinians scored another goal and in the seventh and eight chukker two goals each.

The players on the British side were Captains Fowler, Linde, Dawny and Guiness while the Argentinian team's members were Luis Duggan, Roberto Cavanagh, Andres Gazzoti and Manuel Andrada.—*Transocean News Service.*

400 METRES

("Hong Kong Daily Press" Special)

Berlin, Aug. 7.

The American, Archie Williams won the final of the 400 Metres flat race in 46.5 seconds while the Britisher, Brown, finished second in 46.7 seconds and another American, Luvalle secured third place, his time being 46.8 seconds. The next three places went to Robert (Britain), Loaring (Canada), Fritz (Canada), in the order named.

The winner's time exceeds the World and Olympic records which both stand at 46.2 seconds by three-fifths of a second.—*Transocean News Service.*

CYCLING EVENT

("Hong Kong Daily Press" Special)

Berlin, Aug. 7.

The first cycling event in the Olympiad was decided on Friday, namely the 1,000 Metres scratch race which was won by Merkens (Germany), before Vliet (Holland) and Chaillot (France).—*Transocean News Service.*

Berlin, Aug. 7.

The number of gold, silver and bronze medals in that order won by the various nations in the Olympics is so far as follows: United States, 13, 9, 4; Germany, 11, 11, 9; Finland, 3, 4, 4; Sweden, 3, 1, 5; Italy, 3, 1, 4; Hungary, 3, 0, 0; France, 2, 3, 2; Egypt, 2, 1, 2; Austria, 1, 3, 2; Britain, 1, 3, 0; Japan, 1, 2, 2; Czechoslovakia, 1, 2, 0; Esthonia 1, 1, 1; Argentine, 1, 0, 1; New Zealand, 1,0,0; Canada, 0, 2, 3; Poland, 0, 2, 1, Holland, 0, 1, 3; Switzerland, 0, 1, 0; Latvia, Turkey, Philippines and Australia each 0, 0, 1.—*Transocean News Service.*

CANOEING EVENTS

("Hong Kong Daily Press" Special)

Berlin, Aug. 7.

Two out of the five canoeing events decided on the regatta course at Gruenau on Friday were won by the Germans which is hardly surprising in view of the popularity which the canoeing sport is enjoying in Germany. Of the two events which saw Germany in front was the Kayak Double in which Werwers and Landen were placed first timing 41 minutes 45 seconds before the Austrians, Kalisch and Steinhuber and the Swedes, Halhborg and Larsson whose time were 42 minutes 5.4 seconds and 43 minutes 6.1 seconds respectively. The other canoeing event also won by Germany was the Kayak Single in which the first three places are as follows: Krebs (Germany), Landertinger (Austria), and Riedel (United States).

Victory in the collapsible canoe double competition went to Johnsson and Bladstroem (Sweden) before Horn and Hanisch (Germany) and P. and J. Wijdekoop Holland).

The other two canoeing events were won by Austria and Czechoslovakia respectively, namely the collapsible canoe single by the Austrian, Hradetzky before the Frenchman, Eberhard and the German, Hoermann and the Canadian double by the Czechoslovakians, Motti and Skridant before the Canadians, Saker and Charters and the Austrians, Weinstabl and Proisl.—*Transocean News Service.*

BROWN FAILS

Berlin, Aug. 7.

A. G. K. Brown, sensational English quarter-miler, just failed to clinch the 400 metres final at the Olympics to-day. He had to cry best to Archie Williams, the brilliant American speedster, who covered the distance in 46.5 seconds.

Brown was second and Luvalle of United States third.

Thirty yards from home Williams seemed to be a certain and easy winner, but Brown, Roberts and Luvalle challenged strongly, Williams finally winning by a narrow margin.

The weather to-day was fine and warm.—*Reuter.*

CHOW FAILS

Berlin, Aug. 7.

Chow, China's representative in the Decathlon event competed only in the 100 metres and Long Jump. In the former he returned 12.2 seconds and scored 556 points, while in the jump he leaped 20.6 metres to score 662 points.—*Reuter.*

BASKETBALL

Berlin, Aug. 7.

China lost to Japan in the Olympic basketball competition to-day after a courageous display against tricky opponents. Japan won by 35 to 19, after leading at half-time 15-10.

Chinese were very plucky in the first half and the game was extremely even up to the first part of the second half. Thereafter the Japanese increased their pace, showering on the goals during the last five minutes.—*Reuter.*

EMPIRE SCOUTS FOR WORLD JAMBOREE

London, July 22.

It was announced yesterday that the Boy Scouts Imperial Headquarters hope to sent 6000 Scouts from all parts of the British Empire to the World Jamboree in Holland next year. They will be under the leadership of Lord Somers, Deputy Chief Scout for Great Britain.

It is estimated that the cost per head, including all excursions but excluding the journey to and from the home port, should not exceed £6. The general rule, with some exceptions, is that the Scouts attending the Jamboree should not be under fourteen years of age.

"WAR MAY BE JUST AND RIGHT," SAYS MINISTER

London, July 18.

The Rev. T. W. Bevan, of Bradford, moved the following resolution at the Methodist Conference at Newcastle to-day:

"This conference, believing that all war is contrary to the mind and teaching of Christ, and being persuaded that a firm reliance on the way of Christ is the one hope of gaining world peace, calls upon the Churches to declare that they will take no part in war or in preparation for war."

Further, the conference expresses strong opposition to the rearmament programme of the Government.

The Rev. J. Davison Brown (Nottingham) said that they were all in favour of peace, but he did not think that resolutions such as that were the best way to promote it.

"If this resolution is passed it will be very hurtful to a great number of our people," he said.

"I very much object to the suggestion that we have to choose between faith in God and faith in war.

"However bad war may be, it may have to be the choice between two evils, and while I feel with everyone that war is utterly bad, I feel also that the destroying of civilisation is utterly worse.

"MY GALLANT KINSMEN"

"I am not prepared to believe that my gallant kinsmen who died in the Great War died engaged in an Un-Christian action. I can visualise a situation in which war is not only inevitable, but just and right."

Mr. Brown added that he objected to the last clause in the resolution and said that the obligation of the Government was toward the security of its people.

The Rev. Henry Carter supported the resolution, but said that for the preservation of unity he would prefer that the matter should be considered during the coming year and an "authentic judgment" given.

"The previous question" was moved and carried, and no vote was taken on the resolution.

"Really! Sanatogen will make you Strong & Vigorous again"

"YOU have made too great demands of yourself, but Sanatogen will soon put that right. It contains the very secret of strength and health. Take it regularly for a few weeks, then you will soon feel healthy and happy again."

Remember that every physician the whole world over knows the remarkable results obtained by Sanatogen, and Sanatogen is regularly prescribed by them.

The famous medical paper, 'The Lancet,' writes:

"There is abundant evidence of the value of Sanatogen as a restorative and food, and more particularly in cases of general debility."

Every chemist sells Sanatogen. Go to-day and get a package. Then you will soon feel stronger than ever before.

LINKING AIR AND SEA

A New Travel Facility

AEROPLANE MEETS THE QUEEN MARY

London, July 19.

Passengers at New York can now book a direct steamship and air passage to any part of Europe, and a striking demonstration of this new travel facility was afforded last week, when an Imperial Airways air liner, specially chartered by the Cunard-White Star Company, carried to Budapest certain passengers who had just landed at Cherbourg from the Queen Mary.

The Cunard-White Star Company and Imperial Airways have a working agreement, and Imperial Airways offer services thus provided, besides others of the same kind.

Now that British Empire flying-boat services are being organised and, throughout the world, owing to the rapid development of the flying boat, trans-ocean air services are projected, the selection of termini and ports of call is an important consideration. Established traffic routes cannot be overlooked by air transport operators, although new ones may be cultivated.

FLYING-BOAT HARBOURS

Although Southampton has obvious advantages for flying-boat services, since it is a great sea port, Portsmouth is to be provided with a suitable flying-boat harbour, at Langstone, for Empire and Atlantic services. It is unfortunate that Portsmouth, although no great distance from Southampton, is not quickly reached from it by road, rail, or boat; but Langstone Harbour is near a land aerodrome from which aeroplane services to all parts of the country could be run.

Southampton has a land aerodrome about three miles out by road, but as regards major flying-boat operations would be handicapped by fact that the docks and basins at Southampton proper are unsuitable for the alighting and taking off of big machines. Big flying boats, however, would "tax" down Southampton Water, or be towed out to areas suitable according to conditions of tide and wind.

Cherbourg will undoubtedly develop as an air port, while on the other side of the Atlantic there is a project for constructing a great airport off Brooklyn: a big land field, and a seaplane basin adjoining it with a subway to New York City. At San Francisco Pan-American Airways are making a seaplane basin close to the land aerodrome.

IMMEDIATE START ON 1936 NAVY PROGRAMME

FIRST CONTRACT OF 175,000-TON ORDERS

BY HECTOR C. BYWATER

London, July 23.

The admiralty announced last night that, subject to the settlement of certain points of detail, it had been decided to entrust the construction of the patrol submarine of the 1936 programme to Cammell Laird and Co., Ltd., Birkenhead. This is the first of a large number of contracts for vessels of the 1936 programme, with an aggregate of about 175,000 tons.

As the first part of the programme was announced in April, and the second part during the present month, it is clear that the new ships are to be laid down with the least possible delay. The placing of contracts so soon after authorisation is unprecedented.

Admiralty orders to be placed between now and the autumn include:

Two battleships;
Two aircraft carriers;
Seven cruisers (the hulls of two to be built at Portsmouth and Devonport);
18 destroyers;
Seven submarines; and
Six sloops.

In view of the impending construction of the second Cunard-White Star giant liner, of 80,000 tons, by John Brown and Co., at Clydebank, it is now thought improbable that either of the two battleships will be built in Scotland.

One vessel may be built on the Tyne jointly by Vickers-Armstrong and Swan Hunter and Wigham Richardson. Hopes are entertained on Merseyside that the second contract will go to Cammell Laird, but as other firms are tendering the official announcement may contain a surprise.

NO LABOUR SHORTAGE

The industry is fully capable of undertaking the new naval programme, and no serious shortage of skilled labour is anticipated. It is pointed out that, although shipbuilding is distinctly reviving, the yards at present have only about half as much mercantile work in hand as they had seven years ago.

In addition to Admiralty work, a number of big mercantile contracts are expected. The Cunard-White Star will shortly order two liners of about 30,000 tons each, and the Canadian Pacific is understood to be planning three new liners of 22,000 tons.

TESTS IN AN ANTI-GAS VAN

Fleet Street, July 17.

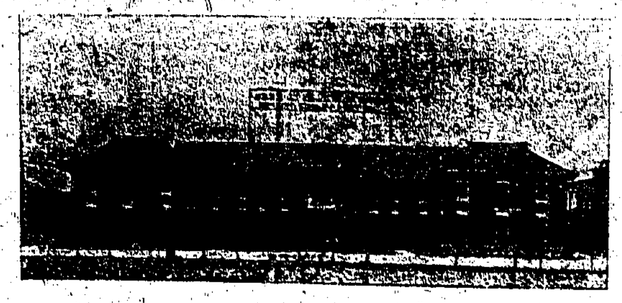

The melancholy but necessary work of preparing the country against gas attacks from the air was carried a stage farther when a demonstration was given to-day at Colindale of the new mobile gas-chambers now being made for the Air-raid Precaution Department of the Home Office, writes a correspondent. Some forty of these mobile chambers on motor-vans are being made—ten are made already,—which are to be distributed among certain towns, under the local chief constables, to be used in training primarily the police, the fire brigade, and the ambulance men, and after that the public generally, in wearing gas-masks when gas is about. Already one hundred and fifty men have been trained as instructors in the use of these vans at the Air-raid Precaution Department's school at Falfield, in Gloucestershire.

They have gas-tight bodies, and are to be, as they were to-day for the demonstration, filled from the inside with tear gas. Then people will enter them and stand in the gas-filled van for a few moments. The vans used to-day are high, rather top-heavy vehicles, with the gas-tight chambers thinly but completely coated with enamel, so that they can be thoroughly cleaned. The tear gas, the least harmful of poisonous gases, is made over a methylated spirit lamp in the corner.

At this demonstration I wore one of the new civilian gasmasks—the first to be made in this country,—a few of which besides the service masks, were being used. Compared with the service masks I found this civilian mask light—weighing only one and a half pounds—and easily adjustable. If the long rubber tube attached to the service mask gives the wearer the hideousness of deep-sea diver, this civilian mask, I found, made one like a hardly less hideous large rubber fox.

In efficiency there is a great difference between the two since the civilian type can only be worn for five or six hours without a refill, and is only meant for wearing until one can be swiftly taken out of the danger-zone, whereas the service mask is a protection for an almost indefinite period. But in the gas-filled chamber to-day I found the civilian type completely efficient. Its rubber clung to face and chin, keeping all the gas out, and breathing, though difficult at first, was easy after that. With both masks there was a slightly uncomfortable tingling on the unprotected part between collar and chin.

I am told that these civilian masks are to be made for, as near as possible, every member of the community. They have been made to fit people down to the age of five, and there are anti-gas perambulator covers, also made so that a gap in age between one and five remains as yet unprotected. The masks will be stored by the air-raid precautions department all over the country, and it is estimated that in an emergency it would take two days for a whole town to be supplied with them.

PROMINENT CHINESE PROMOTED

Dr. Lim Boon-keng To Serve With Economic Council

FORMERLY PRACTISED IN MALAYA

Shanghai, Aug. 4.

The appointment by Gen. Chiang Kai-shek of Dr. Lim Boon-keng, the celebrated Malayan born Chinese, and president of the University of Amoy, as a member of the committee of the National Economic Council, Nanking, is announced. Dr. Lim is in a position to render valuable service to this body, which was brought into existence for the economic development of the country's resources on scientific lines.

His ability, immense energy for work and his great experience as a physician and a man of the world were recognized by the late Dr. Sun Yat-sen, who appointed him the first president of China's Board of Health. He also served the country successively in the capacities of adviser to the Ministries of the Interior and Foreign Affairs on the establishment of the republic.

Although nearing 70 he possesses the energy, vitality and appearance of youthfulness many a younger man would envy.

Before coming to Amoy, some fifteen years ago to help Mr. Tan Kah Kee in organizing and extending the university to the position it holds today in the educational world, Dr. Lim carried on one of the most successful and lucrative medical practices in Singapore, and was recognized as one of the leading practitioners in Malaya. Among his public appointments, he was lecturer at the King Edward VII College of Medicine, Singapore. Of him, it can truly be said that he sacrificed a great practice when he responded to Mr. Tan's call to come to China on being convinced that the country needed his service more than Malaya.

DECORATED WITH THE O.B.E.

As a legislator in a British colony, he served several terms on the Legislative Council of the Straits Settlements as the member representing the Asiatic communities. In recognition of his service to the British Empire in the Great War and for the successful representation of the communities he had served so long and so well, he was made an Officer of the British Empire by the late King of England.

Of his activities in Malaya, the doctor contributed materially in helping to found several Chinese banks, assurance companies, rubber estate plantations and numerous other enterprises of a social, educational or commercial character.

In addition to his O.B.E., he holds several Chinese and foreign decorations and orders, indicating in tangible form the esteem held by the governments of the countries he had the privilege to serve, as tokens of recognition for valuable work rendered ungrudingly and at great personal sacrifice in the cause and for the good of humanity.—(N.C.D.N.)

CROWDS GREET LOCARNO TALKS DELEGATES

"GOOD PROGRESS" AFTER TWO-HOUR SITTING

London, July 13.

Despite unpleasant weather conditions, crowds gathered in Downing-street to-day to watch the arrival of the British, French and Belgian delegates to the Locarno Treaty talks, which deal with the problem Hitler set the rest of Europe when German forces occupied the demilitarised Rhineland.

Each country was represented by its Prime Minister and Foreign Minister, with the addition of Lord Halifax in the case of Britain. M. Blum, the French Premier, did not arrive until a few minutes before the conference broke up for lunch.

He had flown from Paris to-day with his wife. The Belgian delegates, headed by M. Van Zeeland, the Premier, travelled overnight, and reached London early to-day.

The sole object of the meeting is to decide the terms on which Germany is to be invited to a larger Five-Power meeting, including Italy, designed to effect a fresh Western European arrangement, in place of the Locarno Treaty which Germany tore up by her occupation of the demilitarised Rhineland zone last March.

The terms on which the invitation to this later meeting is to be issued will be shown by a communiqué to be published at the end of the meeting.

MEETING'S SCOPE

The scope of the meeting has been carefully restricted by the British, with a view to avoiding:

Establishment of the failure of the "effort of conciliation" (referred to in the White Paper of March 19);

The dividing of Europe into two camps.

Great Britain does not wish to foster by to-day's meeting the creation of a Western bloc, opposed to a Central European bloc, consisting of Germany and Italy.

Britain, however, could hardly refuse the French request for this meeting, considering that it is occasioned by Germany's coup in the Rhineland.

The delegates were at Downing-street for two hours, and it was then officially stated that "good progress had been made." The talks are not expected to end to-day.

Caller: "I would like to see the Judge, please."

Secretary: "I'm sorry, sir, but he is at dinner."

Caller: "But, my man, my errand is important."

Secretary: "It can't be helped, sir. His Honor is at steak."

TROUBLE FOR TWO

At The King's

"Trouble for two," now showing at the King's Theatre, is a story based on the novel, "Suicide Club," by the celebrated story-teller, Robert Louis Stevenson.

The leading roles are filled by Robert Montgomery and Rosalind Russell, very ably supported by Frank Morgan, Reginald Owen, and Louis Hayward.

The scenes are laid in the mythical kingdom of Koravia, and in London.

Prince Florizel, played by Montgomery, and Princess Brenda of Iranja, another mythical kingdom, played by Rosalind Russell, are betrothed without their knowledge. When they were children they were bitter enemies, and they have no intention of marrying each other. Fifteen years have lapsed since they last saw each other.

Being granted a month's grace, Prince Florizel takes a trip to London, accompanied by the ever-faithful Colonel Geraldine, (Ralph Morgan.)

A young man takes the pair to the Suicide Club where he meets Princess Brenda, for whom he had been searching under another name. She is chosen to kill him, but her courage deserts her at the last minute, and, together, they go through some adventurous events.

The President of the Suicide Club (Reginald Owen) is also an exile from Koravia, having been banished for treason. He is determined to kill the young Prince, and traps him into a secret meeting place.

By a very clever ruse the Prince has some hardy followers on hand at the crucial moment, and instead of giving the traitor, Dr. Noel, to the authorities, he fight a duel with him, and emerges victorious.

When the young couple meet at the presentation to the court, they pretend that they do not know each other, and slowly return a wink.

ANYTHING GOES

"Anything Goes," at the Star Theatre, is a jolly, tuneful, entertaining picture. Bing Crosby is the featured player in this song-starred Paramount presentation of the popular Broadway musical comedy which broke records during its New York run. He is assisted by such favourites as Ethel Merman, Charlie Ruggles, Ida Lupino and Grace Bradley.

All the famous Cole Porter songs which were universally popular are heard in this mirthful picture. He has provided a number of others which are equally as good as "You're the Top," "Anything Goes," and "I Get A Kick Out of You." Additional songs by other music makers are included.

Outstanding in the lyric line are the parodies on "You're the Top" which Crosby and Miss Merman sing. These took the audience by storm with their unexpected lines, and proved the spot in the entertainment. Nearly everything under the sun is introduced in these parodies, from Ethiopia to stratospheric flights.

The bright dance routines by LeRoy Prinz deserve mention, as does the fast-paced direction of Lewis Milestone. The audience is carried headlong from amusing escapades to diverting songs, and from spectacular night club scenes to madcap comedy.

Crosby is a knight errant aboard a transatlantic liner. His borrowed passport gets him into trouble, for it belongs to a public enemy. That passport forces him to tumble in and out of sundry disguises with hilarious consequences. The whole ship becomes a madhouse of fun, when Crosby stops at nothing to divest passengers of their costumes. In the end, he gets his reward with an elusive romance.

"Anything Goes" is amusing entertainment through and through. It is heartily recommended to one and all.

SCOTTISH EXPLOSIVES FACTORY

London, July 22.

I am informed that no decision has yet been taken by the War Office regarding the precise site for the explosives factory which is to be established in Scotland as part of the "decentralisation" of Woolwich Arsenal, writes a correspondent, but a number of suitable localities in the South-Western area are being inspected, and the ultimate selection will depend on the surveyors' reports. Apart from the important consideration of vulnerability to air attack, the authorities, in choosing the site, have to keep in mind the question of labour supply and housing facilities for employees who will be transferred from Woolwich.

DEBUTANTES' DISAPPOINTMENT

London, July 22.

More than 200 debutantes were disappointed in the gardens of Buckingham Palace this afternoon when the rain cut short the royal reception. A few minutes of heavy downpour destroyed the colourful splendour of the scene. It was tragedy for the scores of young ladies who had awaited their turn to bow to the King. These had to be content with handing their cards to an official and thus formally recording their presentation at Court.

OUR LONDON LETTER

Gossip Of The Week

London, July, 23.

London during the Coronation month is to be decorated on a style never before attempted. It will be converted into a city of light and gorgeous colour—the show city of Europe.

Mr. G. Grey Wornum, the architect who designed the R.I.B.A. building in Portland-place, and who has been recommended by the Coronation Committee of Westminster City Council to prepare designs for street decorations in Westminster, told me yesterday that that his appointment is to come before the full council today, writes a correspondent.

If it is confirmed he proposes to carry out a bigger decorative scheme than Westminster has ever had before.

"My general idea is to dispense with poles bearing decorations along the edges of the footpaths, and to construct pylons down the centre of the roadways," he said. Streamers would lead to neighbouring buildings from the pylons which would be brilliantly lighted by night."

CHAIN OF TREES ACROSS BRITAIN

The suggestion that the King's Coronation should be celebrated by the planting of a chain of trees from Land's End to John O'Groats was made yesterday at a meeting of representatives of the National Trust, the Council for the Preservation of Rural England, the Royal Horticultural Society, and other organisations.

The speaker, Mr. St. Barbe Baker, also suggested a belt of trees on the boundary of every county. Remembrance Day might be chosen for the planting of the trees.

The Marquess of Lothian, presiding, said that as the King took so keen an interest in gardening, it was appropriate that the Coronation should be celebrated with an attempt to beautify both town and country with trees and flowering shrubs.

ROYAL BEST MAN

The Duke of Kent, in acting as best man for his equerry, Lord Herbert, will be following the example of the Duke of Gloucester.

Three years ago the Duke of Gloucester was best man to Capt. E. W. Brook, his extra equerry, at St. Margaret's, Westminster.

When Capt. and Mrs. Brook left Heston aerodrome on their honeymoon, the Duke of Gloucester flew beside them in another aeroplane for the first few miles of their journey.

The usual convention dictates that a best man should be single. The Duke of Kent will be one of the rare exceptions.

MOORS' LONG MEMORIES

After King Alfonso's abdication many Spanish warships were renamed. The Alfonso XIII. became the Espana, the Principe Alfonso is now the Libertad, and the present Republica was originally the Reina Victoria Eugenia. But the Jaime Primero, whose crew mutinied yesterday, was not one of them. She is named after King James I. of Aragon, who fought against the Moors in the thirteenth century.

Apparently he was considered too remote to offend Republican susceptibilities. But the Moors are still a source of trouble. Rebel Moorish troops have crossed the Strait, and are fighting on Spanish soil.

When in Morocco I was told that several of the oldest families there still hold as heirlooms the keys of the houses in southern Spain and Portugal which they locked behind them four and a half centuries ago.

UNDER CANVAS AT SEA

Finding room on board the Repulse for the battalion of Gordon Highlanders which she is taking from Alexandria to Gibraltar is not such a problem as might be supposed.

The displacement of the Repulse is 32,000 tons. At Gallipoli 1,000 troops were packed into the 1,000-ton destroyer Grasshopper.

Had the transfer been necessary in winter there might have been some congestion.

But the men are to sleep on deck under awnings, the most comfortable thing to do in the Mediterranean at this time of the year.

LORD GRANARD'S RECORD

Before Lord Granard retired from his post as Master of the Horse, he received a presentation from the staff of the department.

It was a water-colour by Mr. A. J. Munnings of King George and Queen Mary driving up the course at Ascot in June, 1926. The picture was particularly suitable, as Lord Granard has now been made Comptroller at Ascot.

Lord Granard was Master of the Horse during three reigns. He was appointed in 1907, and held the post longer than anyone since it was created in the reign of Richard II.

His task at Ascot is difficult. But it is at least a more peaceful form of retirement than some of his predecessors enjoyed. Two were beheaded and one assassinated.

HIS GREATEST THRILL

Dr. Rosenbach's greatest thrill was when he thought that he had lost the precious "Alice" manuscript.

When conveying it to America in 1928 he found on arriving at New York that the particular trunk in which it had been placed was missing.

After an agonising search lasting 24 hours the trunk was discovered on another deck.

It had been placed among a fellow-passenger's baggage owing to a confusion of names.

THE QUEEN MARY MEDAL

One of the passengers on the Queen Mary's maiden voyage was elated when I told him yesterday he could have a medal to commemorate that experience. His pleasure diminished when he learnt that it would cost him a pound, writes a correspondent.

Purchasers, however, do not The medal is on sale to the gene- have to show their credentials. ral public.

A bronze medal was also struck for the Normandie's maiden voyage, following the usual practice of the French Line with their new ships.

These medals were not for sale, but the more important passengers were given them. The others had lesser souvenirs.

The Queen Mary medal has a base relief of the vessel on the obverse with the motto, "Maria Regina mari me commisit."

On the reverse are the arms of the Cunard-White Star, Southampton and Manhattan with a view of the New York sky-line.

Two medals were struck in gold. One has been presented to the King, the other to President Roosevelt.

SONOROUS NAMES

The new post of Captain of the King's Flight, which is included among the new appointments to the King's Household, gives formal recognition to King Edward's known preference for the aeroplane as a means of transport. The post has the sonorous ring that one associates with offices in the royal household, but the name of the first holder, Flight Lieutenant Edward Hedley Fielden, A.F.C., is as workmanlike as the aeroplane itself. For the more ancient offices there are bearers of more resounding names. One notes, for example, Major-General Llewelyn Alberic Emilius Price-Davies, V.C., C.B., C.M.G., D.S.O.

M.C.C. AUSTRALIAN TOUR

Despite rumours to the contrary C. O. Allen has been chosen to captain the M.C.C. tour to Australia. There are bound to be some misgivings about a fast bowler's captaincy, but Allen has not been chosen for his bowling alone. He is a good all-rounder and a sound, if still not a very experienced, captain. He was born in Australia and played in all the Tests on the previous tour, so that he understands Australians and Australian cricket better, perhaps, than some of his predecessors.

THE OTHER NINE

The names of the first seven players invited to take part in the tour will excite less interest than those yet to be chosen. R. W. V. Robins, Hammond, Leyland and the rest were everybody's choice. But who are the other nine? Two wicket-keepers have to be picked, at least one more fast bowler and another of medium pace, and the question of the opening pair of batsmen has yet to be decided. The second Test with All India is expected to give solutions to some of the problems.

"ENOUGH TO KILL MANY PEOPLE"

POSSESSION OF POISON

SERIOUS VIEW TAKEN

Appearing on remand before Mr. Macfadyen at the Kowloon Magistracy on Saturday charged with the possession of a bottle of potassium cyanide, Wong Hung, unemployed, was fined $100 or two months' hard labour in default. At the previous hearing the defendant stated he was taking the bottle to a man, Wong Hau, at 8, Pilkem Street.

Det.-Insp. Elston, appearing on behalf of Det.-Sub-Inspector R. Cunningham who was removed to hospital on Saturday morning, stated that the contents of the bottle had been examined and was found to be 1 lb. of sodium cyanide which was a poison within the ordinance. Defendant was arrested in Shanghai Street by police carrying the bottle in a basket which also contained pieces of lead and antimony used for making silver-plating. Defendant could not give a satisfactory explanation as to how he got the bottle and where he was taking it to.

Defendant remarked that a countryman gave him the bottle in a street in Sham Shui Po to take to Wong Hau.

Insp. Elston pointed out that the police had been to five addresses with the defendant but each time they got to the house the defendant remarked it was not the place.

The label, "The Oriental Dispensary", on the bottle was false, said Insp. Elston. The Government Apothecary and the police had visited the address given on the label and could find no dispensary of that name.

Insp. Elston added that the poison was a huge quantity, enough to kill many people. The defendant had been in Hong Kong for seven years and was at one time a shop foki but had been out of work for the past several months. Police were asking for a heavy fine.

THEFTS OF ROPE FROM SHIPS

Property Sold To Fishermen

OLD OFFENDERS GAOLED

Thefts of large quantities of Manila rope were admitted by Chan Shui, 40 fisherman, Leung Chuen, 35, and Chan Chi-lung, 23, both odd job coolies, when they appeared before Mr. E. Himsworth at the Kowloon Magistracy on Saturday charged with stealing 120 fathoms of ten inch Manila rope from the s.s. Corfu in Kowloon Bay and 85 fathoms of eight inch rope from the s.s. Havel in Junk Bay.

Det.-Sergt. A. E. Haynes said that on July 10 it was reported from the Corfu that rope valued at £20 was missing and on August 3 the Melchers' vessel Havel reported the loss of rope valued at $500. From information received the defendants were arrested in Shaukiwan and they admitted stealing the rope and selling it to the fishing fleet.

Chan Shui had, among other previous gaol terms, served five years in 1922 for robbery, while Leung Chuen, who had no less than nine previous convictions also served five years in 1923 for larceny in a dwelling. Chan Chi-lung also had a previous conviction against him.

The defendants were sentenced to six months' hard labour each to be followed by two years' police surveillance at the expiration of sentence.

PESTERING OF TOURISTS

BAGGAGE SNATCHING AT THE FERRY

"One thing I intend to stop in Hong Kong and that is the pestering of tourists", remarked Mr. Himsworth at the Kowloon Magistracy on Saturday when he imposed a fine of $10 or, in default, three weeks' hard labour, on Ngan Chun-yuen, 26, street coolie, charged with disorderly conduct by snatching baggage at Salisbury Road outside the Star Ferry wharf.

A Shantung constable gave evidence that the defendant tried to snatch a leather bag which was being carried by a European who had come out of the ferry wharf. The European did not call for a coolie.

Detective Sergeant Haynes stated that a struggle between the European and the defendant for possession of the bag drew the attention of the constable. The European boarded the Empress of Russia.

Defendant: I am a newcomer.

ALLEGED FORGERY

Possession of a forged China Light and Power Company employee identification card was the charge against Wong Kam, 25, unemployed, when he appeared before Mr. Macfadyen at the Kowloon Magistracy on Saturday. "My younger brother put the photo on it. I knew it was false", said the accused when charged. On the application of Det.-Insp. A. H. Elston a remand of 48 hours in custody was granted to find out what the defendant wanted the document for.

MORE HEROIN

A seizure of nearly 2,500 heroin pills on the third floor of 38, Tung Choi Street, resulted in a woman, Wong Fuk, being brought before Mr. Himsworth at the Kowloon Magistracy on Saturday and remanded for one week on $1,000 bail on the application of R. O. O'Neill. It was stated that the woman was seated near a drying cupboard containing the pills.

SIMPLE LARCENY

DIFFERENCE OF $90 POCKETED

Receiving a $100 in mistake for a $10 note, cashing it and pocketing the difference, led Wong Chui, 25, a shop foki before Mr. S.F. Balfour at the Central Court yesterday charged with the simple larceny of $90.

The complainant was Mr. A. Parcuna, chief Officer of the s.s. Basilan.

Det.-Sergt. Man prosecuted and stated that the defendant's father was a tailor and the defendant was sent to collect $20 from the complainant. The complainant handed over what he thought was two ten-dollar notes. In reality the notes were one $100 and one $10. The defandant cashed the $100 and paid his father the $20 and kept the $90 difference to pay a gambling debt.

Defendant's father had expressed willingness to repay the $90.

Defendant was bound over in $200 and ordered to repay $90 to the complainant.

CHINESE STEEL CONTRACT

London, July 24.

Dorran Long and Co. have secured a contract to supply and and erect 4,170 tons of steel, valued at $1,500,000 (Chinese), on a new bridge to be built across the Chian Tang River at Hangchow.

An essential link in the rail communication established between Shanghai and Canton is formed by the bridge, which will also play a part in Northern and Southern Chekiang. The total contract value is $4,500,000.

SELLING HIS OWN CHILD

CHINESE RECEIVES SIX MONTHS

Chan Pun, 31, unemployed appeared before Mr. S.F. Balfour at the Central Court yesterday charged with taking part in a transaction on July 28 at No.34, Centre Street, second floor, the object of which was to transfer possession, custody or control of a minor Chau Kam aged 4, for a valuable consideration.

Inspector Ellis of the S.C.A. stated that the defendant was the child's father. There were two children, one, aged one year and the other aged four. Up till a month ago the defendant and his family were staying with his sister. The defendant could not find work so he was given $4 and left the house to sleep in the streets with his family.

On July 25 the defendant quarrelled with his wife and as a result took the young girl and went away. He later returned and told his wife that he had sold the child and produced $10. The mother went to the buyer, a man named Lee Hing, and asked for the child back again. Lee Hing then took the child to the S.C.A., and it was placed at the Po Leung Kuk. The defendant sold the child for $19 on July 28.

Inspector Ellis went on to say that the buyers were lucky in that they were not being prosecuted. They had correctly taken the child to the S.C.A.

Remarking that all it amounted to was that the defendant had taken the mother's child to sell, His Worship sentenced the defendant to 6 months.

CHIEFTAINSHIP CLAIM BEFORE COURT

ALBANY HERALD'S SPEECH

GIRL'S PETITION STRONGLY OPPOSED

London, July 22.

The hearing of the claims for the chieftainship of the family of Maclean of Ardgour was continued yesterday, when the Albany Herald (Mr. Thomas Innes, of Learney, advocate) spoke for over three hours before the Court of the Lord Lyon King-of-Arms in Edinburgh.

Mr. Innes is principal counsel for Miss Catriona Louise Maclean of Ardgour, who is claiming family chieftainship.

He spoke volubly, and quoted at length from heavy volumes of "authorities" piled on a table in the court. Some of his quotations were in French, and in every case he followed them with a translation.

When the Court opened on Monday it was argued that the Albany Herald could not plead because he was an officer of the Court as well as an advocate.

Mr. Innes explained yesterday that Miss Maclean asked to be called the chief or chieftain of the family.

ADVOCATE'S SUBMISSION

Dealing with the plea on behalf of the respondent, Lieutenant-Commander Henry H. Maclean, who is heir male and opposes the petition, Mr. Innes denied that the Lord Lyon (Sir Francis J Grant) had no jurisdiction in questions of chieftainship.

His submission was that the jurisdiction of the Court dealt inseparably with those subjects. They were subjects for which the Court had existed at any rate since the Middle Ages.

The subject of his Lordship's jurisdiction was one which even to-day no Court could afford to regard as other than both socially and practically important, and the fundamental part of the jurisdiction was determining whether a person was the chief or the cadet and representative of the noble families from which they had sprung.

NOT ASKING PRECEDENCE

Mr. Gordon Thomas, advocate, who was one of the counsel for Miss Maclean, emphasised that they were not asking his Lordship to place Miss Maclean before anybody else.

They were only asking for a matriculation of arms, and he submitted that the Lord Lyon had the right to adjudicate on arms, quite independent of patrimonial interest.

Miss Maclean did not claim to be the Chief of the Clan. She stated she was the head of a family, and as such she claimed matriculation and "supporters."

On the whole matter he asked his Lordship to repel the respondent's pleas.

TWO PARTS TO QUESTION

For the respondent Mr. Hector M'Kechnie, advocate, contended that one could not get "supporters" unless one was chief of a clan or had got prescriptive use.

"On the general question of jurisdiction of chiefship," he declared, "I am perfectly content if your Lordship will make a finding that you have no jurisdiction on the question of chiefship of the Macleans of Ardgour."

In his submission, the petition of Miss Maclean raised the question of who was the chieftain of Ardgour, and was in two parts—armorial and chieftain.

In the structure of Highland civilisation the whole matter bore on who was the chief, and was quite different from the matter of who was the *principal* person armorially.

Sex was highly relevant in deciding who was the principal person armorially, and he submitted the female side was barred. Chiefship was a personal thing. One found chiefs who had no land at all.

Counsel said that it seemed to him there was no proper precedent for litigation of that kind, and it would be quite out of the question for the first time to sustain jurisdiction when chiefships were gradually disappearing.

WHAT PETITIONER WANTED

Precedence, he submitted, was just what the petitioner wanted when she arrived at Oban Gathering to have her place adjusted by the Lord Lyon.

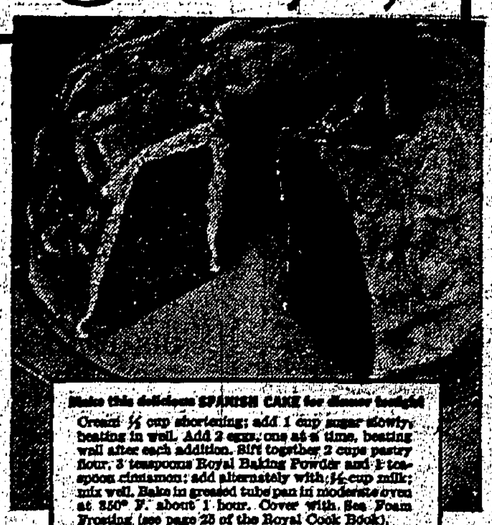

Mr. M'Kechnie went on to say he had never disputed the Lord Lyon's jurisdiction in all armorial questions, but the patrimonial question was not one of these.

He submitted that the law could not take account of it, but only of precedence. On the whole matter, he asked his Lordship to dismiss the parts of the petition which dealt with chieftainship.

The case will be continued today.

YOUNG-FERGUSON

The Union Church, Hong Kong, was the scene of a pretty wedding on Saturday afternoon.

The Rev. J. D. McLean join Miss Phyliss Louise Ogilvie Young, of Broughty Ferry, Scotland, in marriage to Mr. James Johnston Ferguson, the well-known interport rugby player who is a teacher at King's College. The bridegroom is the only son of Mr. and Mrs. J. J. Ferguson, of Invergowrie.

The bride wore a white organdie gown covered with silver spots, and on her head was a pearl and net cap with a wreath of orange blossoms On her arm was a bouquet of white jasmine and lilies.

STAMP DUTY

PROMISSORY NOTES TO COST MORE

Additional revenue estimated to yield about $20,000 per annum is hoped to be raised as the result of a proposed change in the duty on promissory notes by an amendment of the law relating to stamp duty.

The objects and reasons state, in part, that the object of Clause 2 of the amending Bill is to prevent persons evading the stamp duty on conveyances by only executing contracts for sale which are in many cases, especially in the case of company promotions and reconstructions, found to be as good for all practical purposes as conveyances.

The new section 31A inserted in the principal Ordinance by the clause follows closely the language of section 59 of the Stamp Act, 1891, as amended by section 12 of the Revenue Act, 1909, but United Kingdom Patents, or trade marks and the proportion of goodwill created thereby are mentioned expressly in the exception as they are property under the section (see Benjamin Brooke & Co. v. Commissioners of Inland Revenue, 1896, 2 Q.B. 356). An agreement or assignment where the only asset in the Colony is the trade mark and goodwill thereof will not be affected, but in the case of an agreement to assign a business in the Colony including trade marks, the goodwill will be apportioned between that which relates to the trade marks and the remainder of the business.

The object of Clause 4 of the amending Bill is to create a new heading in the Schedule to make provision for the new section 31A enacted in Clause 2 of the Bill.

The object of Clause 5 of the Bill is to change the duty on promissory notes of any kind whatsoever (except bank notes), if drawn, or expressed to be payable, or actually paid, or indorsed, or in any manner negotiated, within the Colony, from 10 cents for every $500 or part thereof to 10 cents for the first $100 or part thereof and 5 cents for every subsequent $100 or part thereof, in order to secure an additional revenue estimated at about $20,000 per annum.

NEW MOTOR CREATION

AN ITALIAN MAKE

The little "Fiat" car (Fiat 500) is a big car in miniature, that is to say a complete and perfect car, though of reduced size. It does not represent the renouncement of any organ.

The car has a diminutive motor with four cylinders of only 567 Cm. 3 of cubic capacity and can easily attain 53 miles per hour. It is not visibly outdistanced by cars with double and 4 times its power, and on even roads, on mountain roads, or on steepest alpine passes, it easily leaves outdistanced many larger cars.

The gears are provided with all the last improvements of the modern technique. Fully loaded it consumes less than 1 gallon of petrol and small quantity of oil, per 45 miles: with facilities for driving, and at reduced speed it is always possible to attain 47 miles for every gallon of petrol. The car has four speeds.

The carriage work represents several good features; from the technical point of view as well as that of utility and beauty, the shape is of a low, flying, long-lined type, two seaters coupé, streamlined. The carriage work is entirely metallic, including the roof. It comprises two wide and comfortable seats with a movable back. The arrangement of seats in the centre of the car is made to suppress every effect of the uneveness of the roads. Behind the two seats there is a ample space for luggage, or otherwise to be used, through which one can reached the electric battery, placed in a very accessible position.

The little "Fiat" car is delivered complete with all accessory like a luxurious car, and costs a small amount so that on account of its qualities the new car should be a favourite in Hong Kong.

As there is not yet an agent of the Fiat in Hong Kong, for particulars please apply to the Inspectorate for S. A. Fiat, 12 The Bund, Shanghai, China.

KNOTTY PROBLEM ALL OVER A BICYCLE

Police are to consult the law officers as the result of a notty problem which arose at the Kowloon Magistracy on Saturday when Leung Kwai, 20, unemployed, was charged before Mr. Macfadyen with larceny, by bailee, of a bicycle the property of a shop at 154 Lai Chi Kok Road.

Defendant, according to Sergt. J.R. Bentley, told the police that he hired the bicycle and rode out to Shum Chun to see a friend. As he was unable to pay duty the bicycle was confiscated by Customs officials.

His Worship remarked that the charge could not be proved as the bicycle had been taken from the defendant.

Sergt. Bentley said he didn't believe the defendant ever intended to return.

His Worship remarked that that might be so but in the circumstances he would adjourn the case for three days to enable Sergt. Bentley to consult the law officers of the Crown.

Sergt. Bentley mentioned that defendant hired bicycles with another friend who had since been arrested with theft.

KING IN FASTEST OF HIS SHIPS

ATTENDS DEMONSTRATION BY NEWEST TORPEDO BOAT

"I congratulate the officers and men I saw this morning on their smart appearance on parade. Splice the mainbrace"

This signal fluttering from the yard-arm of the royal yacht Victoria and Albert in Portsmouth Harbour recently marked the conclusion of King Edward's first visit to the Navy since his accession.

The order to "Splice the mainbrace" means that every naval officer and rating in the port has a free tot of rum issued to him in which to drink the King's health in the case of teetotalers a nonalcoholic beverage may be given.

The navy's newest type of torpedo boat—smallest and fastest of the ships in the fleet—was established as a complete success as a result of the royal visit.

The King embarked in motor torpedo boat No. 1 at the Marlborough pier shortly after noon and ran out to Spithead in her, reaching a speed of well over 40 miles an hour.

In the open sea the torpedo boat was met by H.M.S. Amazon, a 1,300-ton destroyer which manned ship in salute to his Majesty. The motor-boat then carried out a torpedo attack on the Amazon in realistic fashion.

The King stood by the officer at the stern as he launched the torpedo and watched its course through the water until it registered a direct hit.

After lunching with the Commander-in-Chief the King visited the royal yacht Victoria and Albert and presented a silver cigarette case to Seaman Rigger Batchelor, who for many years was lent to the Britannia for the yachting season. He was often in personal attendance on King George.

CHURCH AND POLITICS

The part played by some English Churchmen in recent political controversies has aroused yet another controversy. To what extent, it is being asked, should the clergy intervene in matters of public, and particularly international, policy? How far were they wise in their intervention in controversy over the Italian-Abyssinian War? Is it their business to encourage or discourage recruiting for the armed forces? On one of these questions Mr. Duff Cooper has expressed himself forcefully in recent speeches. To another Lord Winterton gives a sensible answer in an article recently.

Lord Winterton commends the ideal of those League advocates who believe that the League would enable nations to settle their disputes by round-table conference instead of War; commends, too, the Churchmen who supported this ideal. But if, as has recently been proved the case, the League may take strange ways to the achievement of its ideal; if, as has always been the case, the League Covenant not only does not forbid all war, but in some circumstances actually requires war—then it is the duty of Churchmen, even more than of other men, to make this truth known before urging unqualified support of the League upon people hitherto unaware of the consequences of that support. For, says Lord Winterton, "if there is one sound principle of Christian polity, it is that we should take responsibility for the ultimate consequences, so far as we can, of our acts."

This is a priciple that some Churchmen have of late encouraged their congregations to violate. They have prayed for the success of a Peace Ballot which favoured "military sanctions," without telling their congregations that this phrase of foreign importation meant that the congregations themselves, and not just a battalion of the Regular Army or the complement of a destroyer, might be called upon to fight for the League. They have urged support of the League as a means to peace in Abyssinia, without making it clear that Article Sixteen of the League Covenant enjoins League members to institute a war blockade against the aggressor State.

As a result Britain, eager for peace but unwilling to plunge Europe into war for peace's sake, has been led into a position so false as to admit only of retreat. As a result the cry of "Perfidious Albion" is again heard on the Continent. It is, of course, some Churchmen only who have made this grave mistake and brought its results upon us. And the mistake is not theirs alone. But Churchmen as a body will suffer from it, as other bodies have suffered in the same way from their noisy minorities.

The accident occurred about 5.45 p.m. and the woman was rushed to the Kowloon Hospital but died shortly after admission.

A slight accident befell Chan Siu Yung, living at No. 53, Sai Yung Street over the week-end. In attempting to alight from a moving motor bus, injuries were sustained to the head and forearm.

Another traffic accident was recorded outside the Royal Naval Dockyard Gate yesterday when a lorry loaded with luggage was passing the Gate and some of the luggage was disloded, and in its fall caued two of the coolies who were travelling on the lorry to fall also. Lee Sin Mo, one of the coolies received injuries to his wrist which necessitated his removal to the Government Civil Hospital.

A rather curious accident befell Lo Chai, 46, unemployed when he was walking along the road, carrying three jars of sauce on his head, he slipped and the three jars fell and smashed, cutting his head. The injured man was removed to the Government Civil Hospital.

RESOURCES OF NORTHWEST

THE IMPORTANT ROLE OF RAILWAY

Nanking (By Mail):—Great potentiality in the development of the Northwest, the virgin soil of China, after the completion of the Lunghai Railway was visualized by Mr. Chang Chi, member of the Kuomintang Central Supervisory Committee, who recently made an extensive tour in that part of the country.

Speaking at a recent weekly memorial service at the National Kuomintang Headquarters, the older statesman stated that the Lunghai Railway, now being extended further westward, is gradually opening up the resources of this vast territory.

Mr. Chang corrected the wrong impression of a part of the public that the line is constucted for military and political reasons only, saying that its chief importance lies in its help to economic development. This may be testified by the steady growing operating revenue of the line as well as the increase of the area of cotton fields in Shensi from 20,000,000 mow to 40,000,000 mow.

GROWING PROSPERITY

Another indication of the economic value of the line is the growing prosperity of Sian, capital of Shensi, since the completion of its extension to that point. While previously the population of the city was 130,000, it has now been increased to about 180,000. Meanwhile, the average cost of land per mow in the city has jumped to $1,000.

Upon the completion of its extension to Paochi the line, Mr. Chang remarked, will be further extended either to Szechwan or Kansu and Chinghai. Which route will be taken has not yet been decided upon by the railway authorties, but in either case it will facilitate communication. If extended to Kansu and Chinghai, it will provide an outlet for the rich output of wool there.

Mr. Chang expressed the hope that both routes will be opened so as to further facilitate the development of the Northwestern provinces.

Commenting on the repair of the Tomb of Huang Ti, the first emperor of China, by order of the National Government, Mr. Chang said that this has both cultural and material significance. While increasing the respect of the Chinese people for their regal ancestor, it will, at the same time, attract more people to north Shensi, which is thinly populated.—*Central News Agency.*

STILL DEFIANT?

Shanghai, Aug. 8.

The possibility of an early settlement of the situation continues to fluctuate, and the real attitude of Generals Li Chung-jen and Pei Chung-hsi, according to Chinese despatches, remains a mystery. Some messages describe the outlook as gloomy, especially in view of the allegedly defiant attitude of the Kwangsi junior officers.

The Kwangsi border defences are being strengthened and heavy reinforcements have arrived at Wuchow. Kwangsi troops are stated to have occupied Pakhoi, the seaport near the Kwangtung-Kwangsi border, but confirmation is lacking.

Several newly-appointed officials of the Kwangtung Provincial Government left for Canton this morning on the French liner Aramis, including Mr. Hsu Chung-ching, Commissioner of Education, Mr. Wang Ying-yu, Commissioner of Civil Affairs, Mr. Yao Po-man, Director of the Canton Navigation Bureau, and Mr. Tsai Wu-chi, Director of the Shanghai Commodity Testing Bureau, who is reopening the Canton Bureau.—*Reuter.*

DEFENCES OF JAPAN

Advice By War Minister

Tokyo, Aug. 8.

The advice to ignore all the opposition to projected national policies was given to-day to the Premier, Mr. Koki Hirota, by General Count Terauchi, Minister of War, who emphasised the necessity:

Firstly, of the nationalisation of the electric power industry, which is meeting with a hostile reception from private interests;

Secondly, the extension of civil aviation, considered vital as an adjunct to military aviation;

Thirdly, the adoption of rigid control of shipping groups so as to eliminate wasteful competition.

General Terauchi previously conferred with Dr. Baba, Minister of Finance, who opposed the War Ministry's demand for a large issue of "red-ink" bonds for the army's huge replenishment programme, saying that such a step would block the Treasury's efforts to strengthen the financial position of the nation.

The differences between General Terauchi and Dr. Baba are expected to come to a head in a few days, when the Minister of Finance decides which of the Government Departments should receive first consideration in the preparation of next year's budget.

General Terauchi has consistently maintained that national defence should be given priority. He has been steadily increasing the amount which in his opinion is needed by the army for its six-year replenishment programme. Starting with 3,000,000,000 yen, he later doubled the amount, and has now increased it to 10,000,000,000 yen.

"There is no use for Cabinet Ministers who lack the power to execute their plans," he declared. "Such Ministers should be made to resign, as part of the programme for administrative reform."—*Reuter.*

JAPAN LOOKS TO FUTURE

Talk Of Alliance With Britain

London, Aug. 8.

There have lately been several indications that Japan is thinking in terms of an Anglo-Japanese rapprochement, says the "Times." Proud, defiant, perhaps a little light-headed, Japan faces the future, but faces it alone.

The outlook for Japan's foreign trade is far from bright. Manchukuo provides no haven for the surplus population. Russia is viewed with growing apprehension. Even if an armed conflict is avoided the idealogical and economic clashes of these two Powers will leave important marks in the future in the Far East.

In the circumstances a renewal of some form of Anglo-Japanese alliance would be welcomed in Japan. In the "Asahi's" strictures on British commercial policy may be seen the background of Japanese decreasing foreign trade, the real motive for the desire for friendship. Britain would welcome friendship, provided the foundations include a genuine and not merely a nominal regard for the sovereign rights of China.—*Reuter.*

FISHERMEN LOST IN TYPHOON

Search By Japanese Destroyer

Shanghai, Aug. 8.

Lifeboats from the Japanese destroyer Asagao are now proceeding to the scene and will to-morrow comb the coral reefs surrounding Tungsha Island, 180 miles south-east of Hong Kong, in a search for 90 Japanese and Chinese fishermen who disappeared in a terrific typhoon on August 1.

Out of one Chinese and 10 Japanese trawlers anchored off the island three were tossed ashore with no loss of life. Four Japanese trawlers foundered a few minutes after the typhoon broke, 21 persons being drowned. One Chinese and three Japanese trawlers were torn from their anchors and carried out to sea. Several members of the crews jumped overboard and battled their way to the shore.—*Reuter.*

UNITED STATES ATHLETES LEAD THE WORLD

Glen Morris Wins Decathlon

NEW WORLD MARK ESTABLISHED

Dutch Woman Swimmer Creates Sensation

(SPECIAL OLYMPIC SERVICE—COPYRIGHT)

Berlin, August 8.

The Olympic decathlon was won by the American, Glen Morris, with a new world record score of 7,900 points for the ten events of the competition. Since the next two places went to American athletes, namely Clark and Parker, with scores of 7,601 and 7,265, the outcome of the event was a veritable triumph for the United States, which establishes beyond all doubt that her all-round athletes lead the world at the present moment. The next four places went to Huber (Germany) 7,087, Brasser (Holland) 7,046 and Guhl (Switzerland) 7,033.

The former world record for the decathlon had been held by the German, Sievert with a score of 7,825 while the previous Olympic record stood at 7,398. Morris thus bettered these two marks as well as his own new world record of 7,878, which he recently set up in the United States but which had not been officially recognised.—Transocean News Service.

AT THE STADIUM ON SATURDAY

Decathlon Attraction

Berlin, Aug. 8.

If it were not for the fact that the Olympic Stadium seats only 1,000,000 and that the standing room is only for a few thousand more, one would be ready positively to assert that the crowds grow larger every day. All the public conveyances leading westward were crowded on Saturday to bursting point, everyone obviously making for the Olympic Games. The explanation, of course, is that so many other events are going on at the same time in the neighbouring Stadia sports grounds, and the swimming pools, whereas in the main Stadium, the very last place is occupied. By the forenoon the Stadium was filled by the decathlon events.

When the Games resumed at 3 o'clock, interest was divided between the pole vault in the decathlon and the 400 metres relay, in which race the world's record of 40 seconds was equalled by the United States.—

SUNDAY AT THE OLYMPIAD

Supreme Endurance Contest

THE MARATHON

(SPECIAL OLYMPIC SERVICE)

Berlin, August 9.

The first week of the Olympic Games has now passed and the field and track athletic events in which wonderful performances and several new world records have been created will culminate to-day in the supreme endurance contest, the Marathon.

The 42.2 kilometre race will begin at 5 o'clock on Sunday at the Olympic Stadium where it will also finish. A V-shaped course through Grunewald follows the banks of the Havel for half its length, then running back along Avus motor race track to Deutschlandhalle where the turning point is situated at a distance of 21.4 kilometre from the start. The competitors then follow the same route back to the Stadium.

In the very first of modern Olympic Games in 1896 the Marathon was the climax of the programme and interest in this classic trial of speed and stamina has grown from one meeting to another among all nations so that it is safe to say that the Gold Medal for this event is a prize coveted above all others.

Simultaneously with the growth in interest numbers of highly trained competitors have increased and there have never been so many first class entrants as this year.

PROBABLE WINNERS

It is therefore a difficult task to make any prophecies about probable winners. Argentine, Japan, Finland and the United States are all considered to have a good chance, although Lowever and Zabala, who won the race for the Argentine in 1932 at the age of 19 have been training and acclimatizing themselves in Germany for the last six months, will make determined efforts to repeat their successes. If they do they will have achieved something never done before.

Many experts, however, are inclined to favour their compatriot Oliva, especially if the weather is warm.

The South Africans, Coleman and Gibson are also thought to have good chances under sunny weather conditions.

WOMEN SWIMMERS COMPETE

Semi-Finals Of 200 Metres Breaststroke

Berlin, Aug. 9.

In the semi-finals of the 200 metres breast-stroke event for women which took place on Sunday morning, Macata (Japan) and Genenger (Germany) both won the respective heats with decisive margins, their times being 3 mins. 3.1 secs. and 3 mins. 2 secs. respectively. The next best in the first heat was Solrensem (Denmark) second in 3 mins. 6 secs., Hoelzner (Germany) was third in 3 mins. 8.8 secs., while the fourth was Wollschlaeger (Germany) in 3 mins. 9.7 secs.

This was the best time after the first three in each heat and Wollschlaeger therefore also qualifies for the final. The second and third in the second heat were Kastein (Holland) in 3 mins. 9.2 secs., and Storey (Great Britain) in 3 mins. 9.8 secs.

All the above mentioned qualify for the final which takes place on August 11 when Machata and Genenger will have a hard tussle for the Gold Medal.—

Following a magnificent start, Csik, Yusa (Japan) and Fisher (Germany) took the lead. At the turn the Japanese and Hungarian swimmers were practically even and fighting for lead. A mighty spurt decided victory in favour of Csik who crossed the line in 57.6 secs. Yusa (Japan) coming in second in 57.9 secs.—

EXPULSION URGED

Berlin, Aug. 9.

Mystery surrounds the whereabouts of ex-King Alfonso who has been staying at Koenigswert Castle in Marienbad, Czechoslovakia. He left there by motor for an unknown destination, believed to be Germany or Vienna.

Alfonso was recently visited by a party of Spanish noblemen, thereby incurring the disapproval of local Communists who protested to the Mayor and Minister of the Interior demanding the ex-King's expulsion.—

FIERCE BOMBARDMENT NORTH OF MADRID

Alleged meetings with Spanish royalists is causing ex-King Alfonso trouble with certain parties in Czechoslovakia

BOTH PARTIES WARNED

Gibraltar Harbour Dangers

SPANISH VESSELS BARRED

London, Aug. 8.

In view of the danger to which Gibraltar Harbour would be exposed, British Government has informed both the Spanish Government and General Franco, Commander of Insurgent Forces, that in future no Spanish war vessel should proceed to anchor in the naval or commercial harbour at Gibraltar. British warships will patrol the Straits of Gibraltar to protect British shipping from interference and it is made clear there must be no firing in future on British ships.

This is a renewal of similar warnings that have been given, and General Franco has moreover been informed that if military aircraft fly over Gibraltar they will be warned by the firing of three rounds in advance of machine and if this warning is not effective fire will be directed at the aircraft.

A recent incident in the neighbourhood was the dropping of bombs near the British ship Medon and the Dutch ship Zonnewyek, a few miles off Europa Point yesterday for which it is practically certain Spanish aircraft operating from Morocco were responsible.

Gibaltar yesterday witnessed extremely heavy bombardment of Algeciras, the adjacent coast and Centa by the Spanish Government battleship Jaime Primero, the cruiser Libertad and two flotilla leaders in course of which as already reported the British Consulate at Algeciras was hit through inaccurate fire.

The battleship came close in shore and from the mouth of Algeciras harbour, sank the insurgent gunboat Dato and inflicted heavy damage on the coast batteries and barracks and set fire to wharves and much of the town.—

Fierce bombardment of insurgent lines north of Madrid has begun. This is believed to be the prelude to the big offensive to be launched shortly. The Government claims that the insurgent force was defeated at Guadarrama sector yesterday with loss of 200 dead.

Government forces captured the Belearic island of Formentera and the fall of the larger island of Iviza is believed to be imminent.—*Reuter.*

A personal friend of Signor Mussolini has arrived at the insurgent capital of Burgos according to news received by the "Figaro." It is believed that he had an important conversation with the members of the insurgent Government.

The "Figaro" adds that Primo de Rivera, head of the Spanish Fascists, is now out of prison and was wounded while fighting against the Government.

Two lorry loads of provisions are being sent to Madrid, to-day by the committee of the Popular Front, says the Socialist newspaper "Populaire."—

MENACE OF COMMUNISM

London, August 9.

In three or four days Spain will be free from the menace of Communism, declared General Capollano, insurgent leader, when interviewed at Seville where the insurgents are at present organising an air force to assist in the storming of Madrid.

General Capollano stated that 6.000 men from Morocco had already landed in Spain and 20,000 more were ready to cross the Straits of Gibraltar to march on the capital.—

REVOLT AT BAJADOZ

Lisbon, Aug. 8.

General Franco has arrived at Seville to organise the march of the rebel troops on Madrid.

Heavy firing occurred at Bajadoz where the Civil Guards revolted against the Government but were overthrown by the Militia. The Civil Guards surrendered after firing the last cartridge.

Later a rebel plane flew over Bajadoz, dropping several heavy bombs on the barracks which were reported to have been destroyed.—

The Spanish Insurgent headquarters claim the capture of Verida, 40 miles east of Bajados, thus severing the latter town from Madrid.

GOVERNMENT CLAIM

Madrid, Aug. 8.

The Government claim to have had the best of the fighting progressing in Sierra Guadarrama, where it is estimated that the insurgents recently lost 3,500 men. They also claim the capture of the town of Siguenia, near Saragossa. At Valencia the National Labour Federation is assembling a column of 10,000 men.—

FRENCH ATTITUDE

Paris, Aug. 8.

The Cabinet has decided that the Government will observe strict neutrality in Spanish affairs, not authorising any export whatever of arms or planes to Spain.

NO GERMAN HELP

London, Aug. 8.

The German Embassy has given explicit assurances to the Foreign Office that Germany has supplied no war materials to the Spanish rebels and will not supply any in the future. The Embassy also gave an assurance that German warships in Spanish waters will not do anything which might be interpreted as showing sympathy or support for the rebels.—

Reuter.

RETALIATION LIKELY

Berlin, Aug. 8.

Contrary to rumours, active German intervention in Spain is at present regarded as highly improbable. Semi-official quarters indicate that Germany will do everything to protect her nationals in Spain, but does not wish to encourage a situation dividing Europe into rival camps of Socialist and Fascist countries. Nevertheless should more Germans be killed or German vessels fired on, the provocation might result in the German warships retaliating.—

TWO AEROPLANES SHOT DOWN

("Hong Kong Daily Press" Special)

Paris, Aug. 8.

Additional troops and material have arrived at Algeciras from Spanish Morocco, according to reports received from Seville, despite the attempts of the government ships to prevent it. It is stated in the press account that an additional 3,000 troops landed on Saturday.

It is generally believed that General Franco, commander of the insurgent forces in southern Spain, will march directly on Madrid and not on Malaga as formerly planned.

Two aeroplanes of the Government forces were shot down on Friday on the Guadarrama front.

Messages picked up here from Seville broadcasting station state that the Burgos government now disposes of very strong air fleets. Badajoz, states Seville, is in the hands of the military party.—

IN LOCAL BASEBALL LEAGUE

EASTERN'S GOOD SHOWING

Of unusual interest to the baseball fans in the Colony is the result of the baseball game played on the Causeway Bay diamond Saturday afternoon.

The American team played the Eastern. The latter team has been playing only for one season and they took the Americans to the tune of 10-9.

The representation of th national gar e in the States has been pretty ragged this season, and the fact that the Eastern lads could gain a victory out of an American team is news.

Thomson, who started pitching for the Americans, lasted only for five innings. He had umpired the previous game, and almost fainted out in the field in the eighth inning.

Muir, Williams, and Heartner took turns at the mound, but their efforts were not good enough to hold the Eastern.

Arculli and Lenz, for the Eastern, gave a very good account for themselves.

The American nine were augmented by five from the Canadian team: Muir, Smedley, Altree, Goldstein, and Mueller. Being shorthanded, the American had to call on the Canadian team for aid, and the latter was most obliging.

Yet, with the best possible aid from outside quarters, the Americans lost the game.

Score by innings:

	1 2 3 4 5 6 7 8 9	
Americans	1 1 0 2 3 0 0 1 1 = 9	runs
	1 2 1 3 3 2 3 2 2 = 19	hits
Eastern	1 0 0 0 0 2 4 1 2 = 10	runs
	0 2 1 1 0 3 3 0 3 = 13	hits

VOLUNTEERS LOSE

As was expected, the Overseas Chinese defeated the Volunteers in their game yesterday at the Causeway diamond. The overwhelming score of 11-1 more than justified the playing of the Chinese team.

The Volunteer team was in bad form yesterday, when one considers the fact that only last week, they gave the U. S. S. Tulsa a run for the money.

However, the Chinese played exceptionally well, and they deserved the victory.

Joe Bowan wasn't in good form, nor was Winglee, the catcher for the Volunteers.

Scores by innings:

	1 2 3 4 5 6 7	
Volunteers	0 0 0 0 0 0 1 = 1	run
	0 0 0 1 0 0 1 = 2	hits
Overseas	5 2 0 0 0 4 - = 11	runs
Chinese	3 3 1 1 2 1 - = 11	hits

JAPANESE VICTORY

The third game of the baseball league over the week-end was played between the Japanese and the Overseas Chinese at the Causeway Bay diamond yesterday morning.

The Japanese dished out some fine ball, and their victory was well deserved. The final score was 5-2.

Although the Chinese changed their pitcher in the third inning, they could not hold the Japanese. The fielding of the Nipponese was exceptionally good.

The Chinese scored their first run in the fourth inning, and the other in the last, while five of the Japanese were walked, and six fanned out.

The Japanese pitcher stuck it out the whole seven innings, and only walked four and fanned six.

There were two occasions when there were three Chinese on bases with two men out, when the Japanese pitcher struck out the third batter before a run could be scored.

Matty Chang came in to pinch hit for the last batter and rounded out pitcher to first, that is, the pitcher carried the ball to first and tagged it.

WATER POLO

The East Lancashire Regiment played the Chinese Athletic Association at water polo yesterday and lost by four goals to seven. The Chinese outplayed the Soldiers in the first half, registering a clear lead of four goals at the sound of the whistle. The Chinese displayed a fine understanding and their ability to take shots from all angles gave them the lead.

The second half was a different story. The Soldiers fought grimly and scored four times to the Chinese reply of three. This was the more even half.

The Chinese deserved their win for their performance throughout the game. They were the steadier of the two teams and did not relax their grip of the game.

BOWLING GREEN & RECREIO DEFEATED

Record Win For Recreio Juniors

Kowloon Bowling Green's second defeat in two weeks, and the Recreio's humiliation at the hands of the K. C. C. on Saturday enabled the C. C. C. "B" to come up to scratch with these two teams in the running for the senior runners-up position, all three teams having lost five matches to date. The C. C. C. "B" moreover, were responsible for the Bowling Green's defeat on Saturday, and their present form, if kept up, will very probably land them the coveted honour.

The Senior Champions have now won the title for the third year in succession, as they are now 10 points ahead of their nearest rivals, the Bowling Green with yet three more matches to be played. On Saturday they were heads and shoulders above the Taikoo Dock.

In the junior division, both the Bowling Green and Recreio won as expected, Recreio however, recorded the season's highest win when they beat the K. C. C. by 64 shots, all three skips topping the 30 mark.

CHINESE TOO GOOD AT WATER POLO

The Chinese Athletic Association beat the Royal Engineers in a polo match at North Point on Saturday night. The final score was seven to nil, which clearly showed the superiority of the former team.

The Sappers were much too slow in sending their forwards away with the ball, and the defenders were given every opportunity of covering them before the ball came anywhere near the goal.

Ng Kam Chuen and Wong Sun Man of the Chinese shone for the Chinese, while Lt. Calvert starred for the Sappers.

At the interval the Chinese were leading by five-nil, and they increased their score by two more before the ending.

PLAN TO WORK FOR PEACE WITH GERMANY

Vital Locarno Meeting In London

London, July 24.

Complete agreement was reached at yesterday's meeting of the French, Belgian and British Premiers and Foreign Secretaries at No. 10, Downing-street, on the terms of a declaration on the consolidation of peace in Europe.

This declaration, last evening, was jointly communicated to the German and Italian Governments. It expresses in the clearest terms the united desire of France Britain and Belgium for "the consolidation of European peace by means of a general settlement achieved by the free co-operation of all the Powers concerned."

It proposes an early meeting of the five Locarno Powers, first to negotiate a new agreement to replace the old Locarno Treaty—denounced by Germany on March 7—and, if progress is achieved, to widen the discussion to seek a solution of Europe's other problems.

A highly satisfactory feature of the conversations was the remarkable identity of views expressed by the three Governments. France and Britain have not always found it so easy to agree on their objectives when matters affecting relations with Germany were under consideration.

M. van Zeeland, the Belgian Premier, was so well satisfied on this score that he declared, I understand, that there was really no necessity for him to express the views of his Government.

COMMON OBJECT

Preliminary consultations on the form of the draft declaration had already revealed that the three Powers were substantially agreed in principle. It was their common object to work with the utmost energy for a negotiated settlement with Germany, both in the West and in the East.

The talks left a profound conviction on all present that the three Governments are entirely sincere in this ambition.

While much of the time was spent in choosing the precise final form of words which would convey their intentions to all concerned, the discussions necessarily touched all aspects of the European situation.

To avoid the possibility of any misunderstanding, in either Berlin or Rome, that an attempt was being to reach decisions in the absence of those Governments, the Conference avoided any expression of view on the date and place for the Five-Power meeting contemplated.

For the same reason there was no more than a personal exchange of views on the procedure which might then be adopted.

ARMY SWIMMING

At 2.30 p.m. to-day the Royal Engineers will hold their annual aquatic championships at the V. R. C. pool, where the preliminary heats will be swum.

The finals will take place on Tuesday evening at 7.30 p.m. when the main event will be the invitation relay open to the Army units.

Another swimming event is to be held at the Y.M.C.A. at 2.30 p.m., when the Royal Welsh Fusiliers will hold their heats, while the half-mile championship will be decided at Shamshuipo on the same afternoon.

FOUR DEATHS ON THE EIGER

Climbers' Fate

Geneva, July 22.

Four climbers, two Austrian and two German, have been killed while trying to climb the hitherto unscaled north face of the Eiger (13,038ft.) in the Bernese Oberland. Two of them had already made the attempt a fortnight ago, but after three days and two nights spent on the mountain had returned owing to bad weather. They started again with two other friends on Sunday.

At the beginning all went well, but on Monday night they were caught in a storm. Yesterday they continued the ascent in spite of the weather and made very little progress until in the afternoon it was noticed by some people who were watching them through telescopes that two had fallen, but remained hanging from a rope apparently attached to rings screwed into the rock-face. Snow fell during the night and the temperature was well below freezing.

This morning the four men could still be seen hanging from their ropes; but only one of them to be alive. In the meantime four of the best guides at Wengen had left for the Eiger Gletscher, from where they reached a point about 100ft. above the place where the climbers were hanging. They talked to the only survivor, who said that one of his comrades had fallen and had been killed, that a second had been dragged down and strangled by the rope, while the third had died from cold. A rope was lowered to which the survivor attached himself and the guides hauled him up, but when he arrived at a distance of 15ft. from them the guides noticed that he did not move any more. He had died from exposure.

A party from Munich arrived to-day by air and will try to recover the bodies and bring them down.

The names of the four men are given as Herr Hinterstoiffer and Herr Kurz, both Austrians, and Herr Rainer and Herr Angerer, of Munich.

LORD STRATHCARRON'S DAUGHTER

London, July 17

Lord Strathcarron gave away his debutante daughter the Hon. Patricia Macpherson at her marriage this afternoon to Mr. Denys Colquhoun Lowson, son of Mr. and Mrs. J. G. Flowerden Lowson, of Coates Gardens, Edinburgh, and Quarwood, Stow-on-the-Wold.

The ceremony took place at St. Margaret's Church, Westminster, and Canon Anson, Master of the Middle Temple, officiated, assisted by the Rev. John Clayton, Reader of the Middle Temple.

Mr. Ian Wilson accompanied the bridegroom as best man.

BRIDAL GOWN

The bride wore a medieaval gown of cream-tinted satin with a close-fitting bodice and square neckline. The wide sleeves were turned back with deep cuffs of gold lame, and the fulness of the skirt formed a slight train at the back. Her long tulle veil was tinted to match her gown, and held in place with a headdress of miniature lilies. She carried a sheaf of auratum lilies.

The long bridal retinue was composed of two small pages, Fergus Sutherland and John Hall, in hyacinth-blue shorts and shirts, and after them walked the bride's sister, Mrs. Peter Runge, as matron of honour, in a picture frock of hyacinth-blue lisse, on her head was a gold halo, and she carried a bouquet of mixed pink and mauve flowers.

Two little girls and four grown-up bridesmaids completed the procession, dressed in frocks of rose orchidee lisse, with frilled skirts and upstanding frills framing the neckline. In their hair were blusters of blue sweet peas, and they carried bouquets of rose-tinted gladioli and mixed sweet peas. They were Miss Vivien Rhodes and Miss Lurleen Revell-Smith (children), and Miss Bridget Smiley, Lady Joan Rufus-Isaacs, Miss Philippa Fitzallen Howard, and Miss Pamela Hunter.

DEVALUATION OF FRANCE

London Views

London, Aug. 8.

Fears for the French Cabinet's ability to carry out its reflationary programme without resorting to devaluation persist, causing a further fall in the gold currencies in terms of sterling, though the volume of business is fairly small. The franc is also weak compared to the dollar, making gold shipments from Paris to New York profitable. The British control has refrained from intervening.

The Paris corespondent of the "Times" estimates that the Government in two months has added 11,000,000,000 francs to the deficit in the 1936 budget "by obstinately clinging to the gold standard, the Government virtually giving themselves only a few months within which to succeed. So long as the present franc parity is maintained the policy must succeed before Christmas if it succeeds at all."

Despite the very uncertain financial outlook the flight of French capital has not yet assumed dangerous dimensions, the weakness being attributed principally to nervousness at international complications arising from the Spanish revolt.—*Reuter.*

BERLIN SHARE MARKET

("Hong Kong Daily Press" Special)

Berlin, Aug. 7.

Prices so pronounced on Thursday continued on Friday, shares being offered in large amounts, demand being almost entirely absent, so that all prices were under pressure. The Mining shares were the chief sufferers, but also the shares of West Deutsche Kaufhof whose board of directors also recently warned against over-optimism, were depressed, weakening 1½ to 55. News from Spain also had a sobering effect. Fixed Interest Securities on the other hand were very resistent but the turnover was not great.

Call Money rose from 2½ to 3. Young Loan stood at 102. Reichsbanks declined 2 to 193, Dyetrusts plunged 4½ to 165. Salzdetfurth Potash was unquoted, on Thursday was at 179. United Steel Works dropped 4½ to 107½, German Mineral Oils plunged 5½ to 124, Siemenshalske weakened 2½ to 199½ and Bemberg Rayon declined 1 to 84½.—*Transocean News Service.*

THE SHARE MARKET

Harriman's Weekly Review

Saturday, Aug. 8.

Messrs. G. A. Harriman & Co.'s weekly share report and market review issued at noon to-day states:—

Bright and cheerful markets have been the order of the week, with still greater activity displayed in Philippine mining shares. The popularity of these mining descriptions continues to expand and although business transacted in this Colony be even 15% of the volume done in Manila, where on Thursday last over eight million shares changed hands for a total aggregate value of close upon Ps. 4,000,000, demand here is increasing, with buyers taking an ever growing and more intelligent interest in their choice of purchase. People of this colony have done well out of these mining stocks, and as profits made should ultimately be invested in local shares, the boom in Manila must eventually improve our local market. It may be of interest to point out that Manila really calls the tune in making the market in Philippine mining shares, for as stated above, the local volume of business, although, expanding is but a small percentage of that transacted in Manila. Of Hongkong shares, utility leaders have kept fully steady, with Telephones dealt in at $27 cum dividend and Electrics at $52½. Trams however, on the announcement of only a 20 cents interim dividend (against 40 cents, this time last year) came down to $10.60 and Lights, have dropped to $11.50. Yaumati Ferries exchanged at $20. Star Ferries remain unchanged at $90 sellers. In the Docks & Wharves section, H.K. & K. Wharves eased to a selling rate of $96, and the activity in Providents having subsided, these are now quoted at 1.55 nominal. Steamboats are $4 bid and Cements close either side of $9.60. Ropes were sold at $3.60. Dairies are firm at $21 buyers cum interim of 50 cents. Hotels are quiet and on offer at $5.10, sellers, at the moment predominating. Hongkong Realties can be taken at $4.30. Banks are 1590 cum and Unions $547½ respectively, business having been done at these rates.

Mining shares have been very active and a general enhancement in values has taken place. Antamoks rose sharply, at close, to $5.35. Atoks have been well supported up to 95 cts., Baguios have risen to 44 cts., Benguet Consolidated to $23½ after higher levels, Benguet Explorations to 38½ cts. and Big Wedge have been the medium of large business. At the commencement of the week the last named share dipped to 55 cents, but closes strong at 63 cts., Consolidated Mines quiet for some time, are again in active demand, and after big business at 5¾ cts., close 6½ buyers. Ipo Gold are now favoured and this share looks like reaching higher levels. The quotation is 34 cents, buyers. Itogons are steady at 2¾ bid, but I. X. L. have shaded off to $2.90. Masbate were dealt in at 95 & 96 cts. and have closing buyers at 94 cts. Northern Mines were taken in quantity at 37 cts & 37½ cts. Paracale Gumaus after extensive dealings at and near 75 cts., are buyers over. Salacots close in active demand with sales and buyers at 16 cts. San Mauricios are again higher at $2.80. Suyoc have become an active counter here and after declining to 55 cts. were lifted by geen demand to 57 cts.-59 cts. closing. United Paracale touched $2.20, but coming under pressure, due to profit taking eased to $1.90. A feature during the week was the wide change in quotation of Gold Creek shares. At one time down to 12 cents. these suddenly appreciated to 65 cts., on rumours of acquisition of the mine by the Antamok Co. Santa Rosa also rose sharply to 8 cts. sales and Gold Rivers close with keen buyers at 12 cents. Raubs were dealt in at 11/60. The mining market closes very firm.

PHILIPPINE MINING NEWS

Big Wedge Is Running Well

W. W. Harris, president of the Atok Gold Mining Company, which operates the Big Wedge property, returned from a visit to the plant in Baguio, and reports that the mill is working efficiently.

In a written report, F. B. Morehouse, general superintendent at Big Wedge for Atok Gold, states: "The mill is working like a charm. There has never been a breakdown of any kind, or a stoppage of milling. Since we have eliminated the Broadway ore for the time being, due to excessive copper in the ore, results are very nearly what we expected.

"By the end of the month the crew should know their work fairly well and the operation be more or less routine, with uniform results. Mill heads should also improve decidedly within a few days. There was a large amount of broken ore at the beginning, in the old stopes, that run from $4.00 to $10.00 a ton. It was necessary to clean out that ore in order to get fill waste. We could not afford to use it for fill and there was no way to store it. So it had to go to the mill.

"This low grade broken ore is nearly cleaned up now and, as I said, our heads should improve decidely. After all, we are trying to save every ounce of gold we possibly can. We are now conducting experiments on the Broadway ore. We can get a fairly good extraction with flotation, but I am not quite satisfied with that way out. I am now working with cyanide re-generation, and that may possibly be the solution of our trouble with Broadway ore.

"There have been no further developments underground, due to difficult going in both main faces. The Mogul is in good ground and almost to the point where we should cut the vein. Extraction from the ore we are milling is very satisfactory. The July 24th report shows an extraction of 93.8 per cent. Some of the extractions were somewhat higher. Everything is running smoothly, and there is no disappointment in our former calculations whatsoever."

NEW COMPANY IN BICOL AREA

Another company has just been added to the growing list of mining concerns in the Albay district with the incorporation of Banao Gold Mining Company on July 23. Its authorized capital is P1,000.

Incorporators were C. H. Sleeper, J. C. Cowper, Joseph Pastori, A. Syap, and R. Yuson.

The company was formed to acquire a group of claims in the Bicol region adjoining the Cabit property, it was learned.

ALVIR REPORTS ON DULANGAN

A preliminary report has been made by A. D. Alvir, consulting engineer, on the gold, iron and chromite properties of the Dulangan Mining Interests Company, Inc., on the island of Sibuyan and in the province of Zambales.

There are several tunnels being worked in the Dulangan Group. Assays from tunnel number I gave more than $20 a ton, and the vein is about three feet wide. When taken over, this tunnel looked more like an open cut than a tunnel, and because of its poor location nothing has been done except retimbering.

One of the most important tunnels of this group is the East tunnel, work having been suspended in other places to be concentrated here. Several veins have been cut, with good assays resulting.

The West tunnel is considered important, and drifting is being done to follow the vein. The three tunnels mentioned are all well timbered throughout. Only hand drilling is being used at the present, and skilled labour is not available.

When developments are farther along, it is likely that experienced miners will be brought from Luzon.

Several open cuts, shallow shafts, trenches, dog holes, and pits are being dug on various parts of the group to explore indications and outcroppings.
